Subject: Re[2]: Speed Limit Adjustment

We would be asking to reduce the speed limit from 30 mph to 25 mph between Northwoods Mobile Home Park and where the speed limit increases to 40 mph at the north end of our property. The speed limit would just stay 25 mph from 12th street all the way to the 40 mph zone. Drivers have gotten a bit more aggressive over the past year and our thought is that by removing that 30 mph zone it may slow people down a bit. The equipment crossing signs we talked about this summer are scheduled to arrive tomorrow from the state shop and hopefully once those are up it will help some as well.'

Thank You,
Eamon Kelley

It is this group – I will check to see when they plan on meeting next...what kind of change are you asking for?

I think I found it, but could you let me know when the next traffic safety committee meeting is planned?

<https://www.berlinnh.gov/traffic-safety-committee>

Thank You,
Eamon Kelley

Subject: Speed Limit Adjustment

Hi Pam,

I've been asked by the safety committee to explore moving the speed limit change on East Milan Rd from south of our yard to north of our yard. What would be the process for asking for a change in speed limit?
